

Triple Pro™

Mechanical Balance

The triple beam that truly has it all!

Accurate, dependable and stylish; the new OHAUS TRIPLE PRO™ mechanical balance offers it all: The superior quality and durability you've come to expect from OHAUS, plus all the extras to satisfy every classroom activity requiring a balance. Just like the original Triple Beam balance from OHAUS, the TRIPLE PRO balance gives you the confidence to know you have the accuracy and convenience of a toploading balance while allowing your students to gain hands-on experience through manipulation of the poises, attachment weights and the rod & clamp assembly (all included). The OHAUS TRIPLE PRO balance is the perfect learning tool to help students visualize mass measurement principles and to emphasize a hands-on approach to learning.

Standard Features Include:

- Unique, easy grip carrying handle is ergonomically designed and perfectly balanced to allow for effortless movement around the classroom
- Two security features are included to prevent theft; a security loop and a Kensington-type lock (cables sold separately)
- Includes a convenient on-board storage compartment for the included attachment weight set
- A built-in transportation/storage lock helps to protect the longevity by minimizing wear on the knives and bearings, and reducing the possibility of bending the damper vane
- Includes rod & clamp assembly for below-balance weighing (specific gravity determination)

Triple Pro™ Mechanical Balance

Standard Features:

Included Rod & Clamp accessory for specific gravity experiments

Three masses included with balance

Security Device accessory (Lock & cable sold separately)

Specifications

Model	TP2611
Capacity	2610 g (when using the included attachment weight set)
Readability	0.1g
