

NRNF-15

Flocklined Nitrile Gauntlet

Product Datasheet

OUR REF: NRNF-15 (Colour)

PRODUCT DESCRIPTION

A premium grade lightweight Nitrile gauntlet designed for applications where chemical and mechanical protection is required. Excellent resistance against oils, fats, bleaching agents and solvents. 'Lozenge' pattern on palm and fingertips improves grip and performance. Especially formulated for improved dexterity and minimal finger fatigue. Flock lined for moisture absorption. Suitable for use with Food (see separate datasheet)

TYPICAL APPLICATIONS:

General handling of dilute chemicals, solvents, animal fats, alkalis and petroleum related products. Printing, paint shops, food preparation
 NOTE: Not recommended for use with concentrated corrosive liquids.

AVAILABLE SIZES: 7/S • 8/M • 9/L • 10/XL • 11/XXL • 12/XXXL (green only)

LENGTH: 33cm (13")

PACKAGING: Per Pack: 10 pairs
Per Box: 100 pairs

Care should be taken when removing gloves to avoid any contaminant contacting bare skin.

CHEMICAL	CLASS
Methanol (A)	2
N-Heptane (J)	6
40% Sodium Hydroxide (K)	6

Results at performance level 3 and inspection level G1 are classified as Acceptance Quality Level (AQL) = 0.65

Antistatic properties meet the requirements of EN1149-1:1996 for surface resistivity

EC type examination carried out by: SATRA Quality Assurance Ltd, SATRA Technology Centre, Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, United Kingdom (Notified Body No. 0321)

Details of the suitability for contact with various food categories as detailed in EEC Directive are available on request. Please quote product reference when enquiring.

- Storage:** Gloves should be stored in a cool, dry environment in the original packaging and out of direct sunlight.
- Maintenance:** Both new and old gloves should be thoroughly inspected before use to ensure no damage is present. Gloves should not be left in a contaminated condition if reuse is intended - if contaminated, gloves should be cleaned as far as possible
