More Information:

1 PST vfxr59-995 with cabinets, main switch,
 contactor, encoder, profibus, PTC, panel kits
 This cabinet will consist of the following parts
 Power module for VSI
 Pre-changing circuit for DC-link
 Control electronics with control panel to control
 and start up the AFF and controlling the main
 contactor
 Control electronics with control panel to VSI
 Cooling
 LCL filter
 main contactor (I1, c, I2)
 EMC filter (MFI) Output coils (LB)
 Per-charge circuit (f2, k2, d2, r2)
 Control panel (PPU) AEF
 Inside
 Control panel (PPU) VSI: outside
 Fast fuse
